

Harris CO2 regulator with heater
Electrically heated flowmeter regulator

MODEL - 711

Typical Application: All welding with high and continuous flow

Features

- ◆ CE marked
- ◆ Two independent heating elements controlled by thermostat
- ◆ Stabilized temperature up to 30 Lpm continuous CO2
- ◆ Overheating protection with resettable thermal fuse
- ◆ Insulation IP 64 (EN 60529)
- ◆ Voltage: 110 and 240 volts versions
- ◆ 3 metres long (9.87 feet) power cable

Model Number	Gas
711	Carbon Dioxide

Technical Data

Max Inlet Pressure	Max Air Flow	Supply Pressure Gauge	Weight
230 bar	25 LPM	0-315 bar	1.52 kg
